Roadmap

- **Centralised Accounts Payable System – (tracking client expenditure)**
- **Outcomes framework framework**
- **Property & Asset Management**
- **Incident Management**
- **Risk & Compliance Management**
- **Central Carer Register**
- **Mobile apps**
- **Data integration with DHHS**

Governance

- **MacKillop has invested $1M to date**
- **The cost model is based on a small percentage of operating budget 0.03% year one and 0.01 thereafter**
- **The cost model is cost recovery only. Any additional funds are reinvested back into enhancing EDDI &/or reducing the fees to CSOs**
- **We have an ever growing list of enhancements in our backlog that needs to be prioritised**
- **Need to do more thinking with this but "partnering"**

Governance

- **Need to do more thinking with this but "partnering" with shared risk shared reward is where we have landed**
- **Formation of Sector EDDI governance group with CfECFW, OzChild, UMFC, Mallee Family Care, Melbourne Uni.**
- **Terms of Reference will be worked on and agreed to**

Thank you
