Effective Leadership Training for the Community Services Sector

Designed by practitioners for practitioners

Designed for staff who have leadership responsibilities of teams in the Community Services sector, or who wish to build their leadership capability, this workshop aims to provide participants with the skills and tools to lead effectively and successfully. Additionally, it will build insights and understandings of the elements of effective leadership to develop leadership competence and increase confidence in successfully leading teams.

Program Topics

- Managing self-care/self-awareness to be an effective leader
- Models of leadership
- Managing Teams (including difficult behaviours/conversations)
- Leadership through a trauma informed and cultural lens

Learning Outcomes

- Recognise the impact a good leader plays in supporting teams in the Community Services sector
- Understand key skills in becoming an effective leader
- Increase confidence in leadership capability
- Identify and implement successful leadership strategies

Delivery Details

This is a 3-hour highly interactive workshop that can be delivered either in-person or online. To optimise the learning experience and maximise opportunities for learner participation, audience capacity is 30 participants per session

Who should attend

Any participants in the Community Services sector who have leadership responsibilities. This training is fully customisable to accommodate either new leaders or those with more experience who wish to further develop their leadership skills.

Supervision and Leadership Skills Training combined workshop

Paired with the Effective Supervision Skills training, this workshop can be delivered as a Supervision and Leadership Skills complete training package. The 6-hour combined content forms a powerful approach to supervision skill development specifically catering for staff who wish to support and successfully lead teams working in the Community Services sector.
