

2013 Calendar

Please see overleaf for the Centre's Learning and Development training calendar for 2013. We have based our training calendar on feedback from participants who attended the programs delivered during 2012, and on the broader learning needs of our sector. We are always interested in taking suggestions and recommendations about future learning programs, so please get in touch if you have some ideas for inclusions in 2013/14

Brokered training and consultancy

We continue to offer a training and consultancy brokerage service, bringing our expert practitioner-facilitators and programs to your door. This can be arranged for the majority of programs advertised on the calendar, and for any specific learning needs identified by you. We recommend that you consider this option if you seek a learning opportunity for a number of staff. This brokered or in-house training and consultancy approach is a cost-effective way of accessing learning and development for our rural and regional organisations, eliminating the extra travel and accommodation expenses associated with coming to Melbourne.

Don't forget that it's not just training that can be offered in-house to you, but consultancy services from our expert practitioners on a range of areas vital to your work in the child and family services sector. Please contact us for more information and to discuss options to meet your needs.
