PROFESSIONAL DEVELOPMENT ELEARN

Victorian Child Safe Standards

Overview

The *Victorian Child Safe Standards eLearning Module* is a flexible, interactive online program designed to build your understanding of Victoria's eleven Child Safe Standards. Grounded in the requirements set by the Commission for Children and Young People (CCYP), this module helps you understand the policies, practices, and behaviours required to create child-safe environments. This eLearn takes you step-by-step through each Standard, unpacking what compliance looks like and offering practical tools to support safe, consistent, and child-centred practice.

Purpose

The purpose of this eLearning module is to provide a clear, accessible introduction to the Victorian Child Safe Standards for individuals and organisations seeking to strengthen their child safety knowledge and practice. Whether you are new to the Standards or refreshing your understanding, the module equips you with concrete actions, reflective prompts, and practical guidance to support implementation and promote a culture where children's safety and wellbeing come first.

Learning Outcomes

By completing this module, you will be able to:

- Understand each of the eleven Child Safe Standards and the role of the CCYP in oversight and compliance.
- Learn what actions individuals and organisations can take to meet the Standards in day-to-day practice.
- Strengthen your understanding of how to identify and prevent risks of harm or abuse.
- Build confidence in recognising what child-safe policies, environments, and behaviours look like.
- Access practical resources and tools that support sustained and meaningful implementation.

Target Audience

This eLearning module is designed for anyone who contributes to the safety and wellbeing of children within an organisation, including staff, volunteers, leaders, governance roles, and support personnel. It is suitable for all sectors that work with, or provide services to, children and young people, and can serve as either a standalone learning tool or a foundation for further Child Safe Standards training.

PROFESSIONAL DEVELOPMENT ELEARN

Victorian Child Safe Standards

Delivery Format

This is a self-paced, online eLearning module that takes approximately one hour to complete. It features interactive activities, videos, knowledge checks, and downloadable tools to support practical application of the Standards. Learners can start and complete the module at any time, making it ideal for individuals seeking accessible, flexible professional development.

Key Topics

- Overview of all **11 Child Safe Standards**.
- Understanding the role of the CCYP and organisational responsibilities.
- Practical checklists to guide the implementation of each Standard.
- Interactive scenarios and activities to apply learning.
- Inclusive practice considerations, including safety for First Nations children and diverse communities.
- Further reading, tools, and resources to support ongoing compliance.

Expected Outcomes

After completing this module, you will have increased confidence in understanding and applying the Child Safe Standards within your role. You will be equipped with practical tools to support compliance, greater awareness of the responsibilities organisations hold, and improved capability to contribute to environments where children are safe, respected, and heard.
